

Trai gives enterprises 2 weeks to verify SMS templates

FE BUREAU
New Delhi, May 25

IN A BID to curb the menace of spam messages, the Telecom Regulatory Authority of India (Trai) on Thursday asked enterprises such as banks, insurance companies, financial institutions and other entities to re-verify their SMS content templates with the telcos within two weeks. The content templates are registered by such entities on the distributed ledger technology (DLT) for sending commercial messages to their users. Telcos only own the network, whereas the promotional messages are sent by enterprises through telemar-

eters registered on the DLT platforms. DLT platforms are run by telecom operators where businesses who are involved in sending bulk promotional or transactional SMS need to register by giving their business details, including sender IDs and SMS templates. The development assumes significance amid increase in spam messages post which Trai in February directed the telecom companies to allow only registered telemarketers for sending messages on behalf of enterprises. The regulator also asked the telcos to clean the headers and content templates used for SMS by enterprises. However, Trai said that many

enterprises or principal entities have not yet completed the verification process for their headers and content templates. This delay poses risks such as spam and financial fraud, both inconveniencing the public, according to Trai. Failure to comply may result in the blocking of headers, content templates, and messages, Trai said in a notification, adding that it will monitor the progress made during this period and, if necessary, issue further instructions. Earlier this month, Trai asked telecom operators to stop the misuse of message templates used for commercial communication in the next 45 days.

Indians dominate UK's student visa tally

INDIAN NATIONALS TOP the tally of skilled worker and student visas issued by the UK over the past year, according to official immigration statistics released in London on Thursday. The Office for

National Statistics (ONS) data collated by the UK Home Office shows that Indian nationals were the top nationality for cross-sector skilled work, including specifically targeted healthcare visas aimed at

filling staff shortages in the National Health Service (NHS). They also made up the largest group of students granted visas under the new Graduate post-study work route, representing 41% of grants. —PTI
